

System Requirements of the Brake System

Brake System:

In order to use our Trailer Service Online, you will need a brake system equipped with a Trailer EBS D Generation modulator (manufacturing date: first week of 2004 or later).

Brake Pad Lining Wear Indicator:

In order to indicate lining wear on brake pads, the trailer must be equipped with a WABCO brake pad lining wear indicator.

Readout of Data from the Trailer:

In order to read out data, you will need T-EBS diagnostic software, Version 5.0 or later.
