# What is TX-VISIO WEB?

Specifically designed to smoothen information exchange between users and the back office, TX-VISIO WEB is an online duty time management package. The concept is simple: you subscribe to the TX-VISIO WEB platform and your users gain direct access to the software, online. As we take care of the application and of storage of your data, you can stay focused on your core business.

# Why use TX-VISIO WEB?

We are experts in the processing of social security data and of compliant driver and vehicle data. Used by countless European carriers, TX-VISIO WEB sets the pace in duty time management.

- Import of digital and analogue data
- Legal archiving
- Infringements
- Payment preparation
- Export of .xls, .doc and .pdf data

# How to use TX-VISIO WEB?

TX-VISIO WEB offers a broad range of features for duty time management - from managing legal requirements through to managing duty time forecasting.
