

WABCO

Mobilizing Vehicle Intelligence

FACT SHEET

ABOUT WABCO

WABCO is the leading global supplier of braking control systems and other advanced technologies that improve the safety, efficiency and connectivity of commercial vehicles. Originating from the Westinghouse Air Brake Company founded nearly 150 years ago, WABCO is powerfully “Mobilizing Vehicle Intelligence” to support the increasingly autonomous, connected and electric future of the commercial vehicle industry. WABCO continues to pioneer innovations to address key technology milestones in autonomous mobility and apply its extensive expertise to integrate the complex control and fail-safe systems

required to efficiently and safely govern vehicle dynamics at every stage of a vehicle’s journey – on the highway, in the city and at the depot. Today, leading truck, bus and trailer brands worldwide rely on WABCO’s differentiating technologies. Powered by its vision for accident-free driving and greener transportation solutions, WABCO is also at the forefront of advanced fleet management systems and digital services that contribute to commercial fleet efficiency. In 2017, WABCO reported sales of \$3.3 billion and has nearly 15,000 employees in 40 countries.

ACCELERATING TOWARD AUTONOMOUS DRIVING

As the commercial vehicle industry accelerates towards an increasingly autonomous, connected and electric future, WABCO's pioneering technology breakthroughs are laying key milestones on the technology path towards this vision.

AUTONOMOUS DRIVING

Setting a clear roadmap to support the industry's vision for automated commercial vehicles that operate efficiently and safely, WABCO is delivering the global technology leadership and innovation building blocks required to mobilize vehicle intelligence for autonomous driving. Combining its unique ability to integrate active steering, active braking and stability control, WABCO is delivering the systems to enable increasing autonomous control of vehicle dynamics on the highway, in the city, and in yard applications.

VEHICLE CONNECTIVITY

As vehicles become more intelligent and connected to the Internet of Things, WABCO is preparing the on-board and environment around the vehicle to ensure that vehicles can be operated, tracked, serviced and supported in the field - whatever their size or geographic location. As a full system supplier, WABCO can uniquely connect trucks, trailers, cargo, drivers, business partners and fleet operators in real time, helping commercial fleets to significantly enhance safety and productivity.

ELECTRIC FOR GREENER TRANSPORTATION

As the commercial vehicle industry strives towards environmental sustainability, WABCO innovative green technologies, from aerodynamics to systems for electronically controlled vehicles enhance vehicle fuel and operational efficiency. A vehicle equipped with WABCO's portfolio of efficiency technologies can increase fuel economy by up to 20%.

A JOURNEY OF INNOVATION

WABCO's innovation journey features many "industry first" technologies such as:
